

March 2006 Update

Spring has sprung at the OAK Orthopedic Sports Arena! It began with the Mancino's Skate for the Gold Winter Olympic Kickoff Celebration on February 11. Over 800 spectators enjoyed our program performances, which included a synchronized skating number by the Bridging the Basics class, as well as individual short programs by nine of our Learn to Skate students. The Hockey Learn to Skate class showed off their abilities with a Speed Skating demonstration, while the Hockey Learn to Play skaters dazzled the crowd with a scrimmage game.

Moving into Session 4, we have an exciting line-up that features the introduction of a 3-on-3 Hockey League. This league is designed to give the first-time players the game experience without having to know all of the rules and positions of hockey, while also providing the more experienced player with a game that will both challenge and thrill!

Don't miss out on our first annual Shamrock Skate on Friday, March 17 from 7-8:30pm! We will also have extended public skate, drop in hockey, family drop in hockey, and boot hockey times April 10-17. To cool your Spring Fever, visit the OAK Orthopedic Sports Arena!
